A3. GUIDELINES FOR ORGANIZATION AT THE INTERNATIONAL CONFERENCE ON SOCIAL SCIENCE METHODOLOGY

1. The conference language is English.
2. Between the Interim-Conference and the World Congress of Sociology, the RC33 Board searches for persons or institutions willing to become organizers for the next “International Conference on Social Science Methodology”. These organizers may present a bid and cost calculation at the business meeting at the World Congress of Sociology. At this business meeting, RC33 decides where the next “International Conference on Social Science Methodology” will take place and who will organize it.
3. There will be an open call for session organizers via the *RC33 Newsletter*. RC33 members may distribute this call via other channels.
4. All sessions have to be international: each session should include speakers of at least two countries (exceptions will need good reasons). Moreover, each paper must contain a methodological problem (any area, qualitative or quantitative).
5. Speakers can only have one talk per session. This is also true for joint papers: it will not be possible for A and B to present at the same time one paper as B and A during the same session. This would just extend the time allocated to each speech in the different sessions.
6. Sessions will have a length of 90 minutes with a maximum of 4 papers or a length of 120 minutes with a maximum of 6 papers. Session organizers can invite as many speakers as they like. The number of sessions depends on the number of papers there are.
7. There will be several calls for papers via the *RC33 Newsletter*. To begin with, session organizers can prepare a call for papers on their own initiative, then at a different time, there will be a common call for papers, and session organizers can ask anybody to submit a paper. RC33 members may distribute these calls via other channels.
8. Papers may only be refused for the conference if they do not present a methodological problem (as stated in Article 3 of the RC33 Statutes), are not in English or are somehow otherwise estimated by session organizers as not being appropriate for the conference. Session organizers may ask authors to revise and resubmit their paper so that it fits these requirements. If session organizers do not wish to consider a paper addressed to them, they should inform the author and forward the paper to the conference chair who will find a session where the paper fits.
9. Papers directly addressed to the organization committee (and those forwarded from session organizers) will be offered to other session organizers (after proofing for quality). It is then up to the organizers to include a paper in their session(s) or not. If they think it does not fit into the session(s), the papers should be sent back as soon as possible to the organizing committee so that it can offer the paper to another session organizer.
10. There will be a conference Web site with information about the procedure for submitting a paper and deadlines.
11. The organizers of the “International Conference on Social Science Methodology” commit to arrange the registration for the conference to include also the RC33 membership registration and to pass the funds from the membership registration to the RC33.
